from the user. The Examiner stated that he believes these features may be patentable over the art of record, although he would need to consider the prior art further before making a conclusion regarding patentability. The Examiner also noted that he had not yet thoroughly considered the arguments set forth in the Remarks section of the Amendment, prior to the interview, and that he needed additional time to consider all of the arguments more thoroughly.

No agreement was reached during the interview regarding a change in status of the rejected claims. The interview then concluded with the Examiner stating that he will consider Applicant's arguments upon reviewing the filed Amendment in detail.

Applicant's undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our below listed address.
